THE COMPANY PROFILE

 **KASCCO** LTD.

HELLO THERE!

INTRODUCTION

Kascco Ltd specialises in contract Mining, civil construction, drilling, crushing, screening, projects (bulk earth works) and plant hire. For over 14 years, Kascco Ltd has been offering its clients a series of potential solutions adapted to each of their sites and coping with stringent logistical constraints. All mining equipment maintenance is performed in-house to ensure continuous production under the safest working conditions.

Our team includes some of the most highly skilled and experienced professionals in the industry. Kascco prides themselves in their ability to transport and hire quality construction and mining machinery to their clients as well as the execution of high quality construction and mining projects.

Kascco has a dedicated and capable management team that is always able to stagegate all projects to meet the required cost, quality, time and safety standards. Kascco Limited has been in existence since 2005 and has grown from a micro equipment hiring contractor to one of the leading mining, drilling, roads and earthworks contractors in the construction and mining cluster domiciled in Zambia and DR Congo.

VISION STATEMENT

**SAFELY EXTRACT VALUABLE
RESOURCES EFFICIENTLY,
SUSTAINABLY.**

- To be a cost effective, reliable and efficient contractor group, with a national and international presence that will provide an excellent service to our customers & provide sustainable opportunity for our employees through training with a commitment to safety at all times.
- To perform for our customers, the highest level of quality construction and mining services at fair & market competitive prices.
- To ensure the longevity of our company through repeat and referral business achieved by customer satisfaction on all areas including timeliness, attention to detail and service minded attitude
- To maintain the highest level of professionalism, integrity, honesty and fairness in our relationships with our suppliers, subcontractors, professional associates and customers.

OUR SERVICES

MINING

MINE DEVELOPMENT

Kascoco Ltd specialises in mine management, production and maintenance. Our mining team includes some of the most highly skilled and experienced professionals in the industry. We offer a broad range of capabilities — from exploration, bush clearing, infrastructure construction, drilling, mining (load and haul – pit development) and rehabilitation of borrow pits and waste dumps.

TRANSPORTATION AND LONG-DISTANCE HAULAGE

With a vast experience in long distance haulage and transportation across countries, Kascoco Ltd has proven to be a dynamic force in undertaking her exercise with diligent, honest, timely and cost-effective logistic. With a fleet of over 50 trucks inclusive of heavy-duty low beds, semi trailers, bulk cement carrier you will be assured to receive your delivery beyond expectations

The depth of our resources is reflected in the variety of projects we undertake from:

- Roads constructions
- Tailings dams constructions and uplifting
- Mining (load and haul), pit development drilling.
- Road base stones crushing and long distance haulage.

DRILLING (EXPLORATION AND BLAST HOLES)

With the provision of a total solution to drilling, Kascoco Ltd has expanded her activities from blasting holes to exploration work with a large number of drill rigs fleet ranging from ATLAS COPCO CS14, ATLAS COPCO L8-30 & PANTERA D 1500 which provide excellent work in the field.

OTHER PROJECTS

Kascoco Limited has been in existence since 2005 and has grown from a micro equipment hiring contractor to one of the leading mining, roads and earthworks contractors in the construction and mining cluster in Zambia. Being a champion in the construction of :

- Heavy traffic roads
- Pipe lines and culverts
- Drainage,
- Road maintenance,
- Crushing and screening on various size of aggregate stones

We've offered it all and more. Regardless of the scope of the project, Kascoco Ltd works to meet the needs of our clients in the timeliest and most cost-efficient way and always with an eye to quality and safety.

QUALITY MANAGEMENT

QUALITY POLICY STATEMENT

Kascoco concentrates on providing its customers with quality products. To this end the group mobilises its management skills and uses its resources in the most efficient and cost-effective manner to produce projects of the required standard and quality. Quality control and using best construction practises are core activities of Kascoco. In order to reinforce this philosophy, the company has become a member of the National Construction Council (NCC) of Zambia.

Quality control objectives :

- To deliver our client the standard of quality specified in the contract and to exceed these standards where possible.
- To create and maintain the culture of quality in the company.
- To ensure that all our employees are trained in quality assurance and that this training is ongoing at all levels.
- To meet all legal requirements in respect to quality.
- To provide the resources necessary to achieve the required level of quality.
- To provide documentation evidence of all quality control measures.
- To ensure that all consultants, suppliers, subcontractors and others who are involved in our projects meet the required quality standards.
- To continually review and implement quality control and best practices procedures.
- To seek feedback from our clients and consultants as to the level of quality delivered.
- To ensure that quality control mechanisms are being effectively and efficiently applied at all times.

Kascoco acknowledges its duty to meet the client's requirements; in all respects and as such stands by a quality assurance management system in line with NCC. We define quality as the totality of features and characteristics of a service that bear on its ability to satisfy a given need. It is simply put "conformance to requirements". We understand the meanings and consequences of 'economic quality', 'conformity', 'compliance', quality management etc. Our quality system sets out the organisation's structure, responsibilities, activities resources and events that together provide organised procedures and methods of implementation, to ensure the capability of the organisation to meet quality requirement.

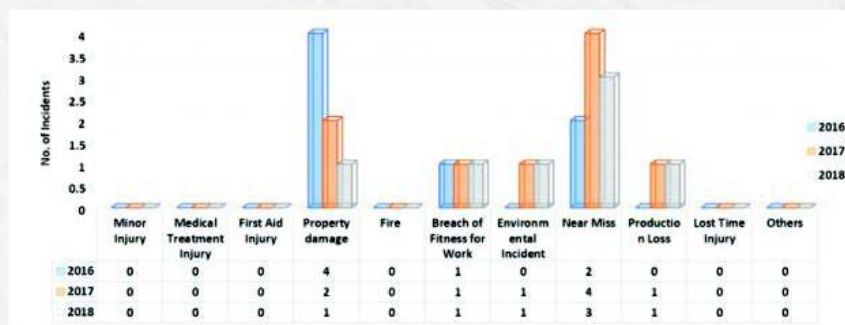

OUR QUALITY ASSURANCE SYSTEM EMBRACES:

- Management Responsibly;
- Documentation & Data control;
- Purchasing;
- Process control;
- Inspection & Testing;
- Corrective & Preventative Action;
- Handling, storage, Packaging, Preservation and delivery
- Internal Audits, Training, etc

HEALTH & SAFETY

Kascco LTD aims at ensuring compliance to government legislative requirements whilst setting a high occupational health and safety standard. At Kascco Health, Safety and Environment (HSE) is everyone's business and priority. We believe compliance with statutory requirements represents only the minimum standard acceptable. Instead, Kascco is committed to our policy of "zero incident"- to our people, our equipment and the environment we work in. In our pursuit of the highest occupational health and safety standards, we promote safety through training resources, systems and accurate record keeping. Our standards and procedures collectively define the way work is to be planned, assigned and executed to achieve safe outcomes. We believe that incidents and injuries should not occur if all the requirements of our standards and procedures are always applied and followed.

INCIDENT STATISTIC DATA – YEAR 2016 - 2018

PORTFOLIO BROCHURE

Kascco is the 'Home of Excellence Mining and Construction Services', standing behind over 200 pieces of earthmoving equipment, that are maintained internally and externally following OEM specification and recommendation to ensure full time availability and reliability. At Kascco Ltd our people are the greatest asset. Personal development of every individual is encouraged within the company through continuous training and workshops. Our relationships with employees is based on reciprocated respect. Our personnel are fully trained, qualified and experienced to take any work load required. We have done a sizeable amount of works including mining, earthworks and equipment hire for different clients to mention a few:

- Barrick Lumwana Mining Company
- Kalumbila Minerals Limited (FQML)
- Kansanshi Mining Plc
- Inyatsi
- WBHO
- Spencon
- Avantech

In conclusion, Kascco is a very dynamic construction company and have dreams of expanding our civil engineering barriers into building construction.
